JAPANESE OREPE, Bulk, and a large assortment of Dry Goods and Croceries.

L. J. LEVEY, AUCTIONEER.

Regular Cash Sale

On Saturday, July 20th.

At 10 o'clock a. m.

I will sell at my salesrooms,

Bed Room Sets,

Marble Top Tables, Extension

Dining Tables, Stoves, Sewing

Machines Silver Plated Ware,

JAPANESE OREPE,

Bulk, and a large assortment of Dry

Goods and Croceries.

L. J. LEVEY,

AUCTIONEER.

NEW PROCESS

FREE.

STOVE.

No lottery, raffle or game of chance, but a straight business proposition. Every

person who purchases one of our New Process Stoves between Thursday, Nov. 18, 1919, and One O'clock, August 7, 1920, will be entitled to one of five prizes.

The person guessing correctly, or coming nearest to the correct number, will receive at once a present of the full amount paid for his stove; in case of two or more persons guessing the winning number, each shall make a further guess on the sales of the following week, one person thus finally receiving the prize.

As the stoves are sold at the regular price, no one risks anything, only if you guess nearest to the right number your stove costs you nothing. The prize being simply an aid, for New Process Stoves.

Seal your guess in an envelope and place your name and address on the inside, and some private mark on the outside. The envelopes will be carefully kept, and no one but the guessers will know what is inside until the date of opening.

A correct list of stoves sold will be hung up before the opening of envelopes, which will be done at our store in the Waring Block, Fort and Beresford streets at 1 p. m. on August 7, in the presence of stove purchasers and the public.

Remember—Stoves Sold on the Installment Plan.

C. V. STURDEVANT, WARING BLOCK, Sole Agent.

Tel. 96. P. O. Box 406.

(Over Fort and Beresford Streets)

## OIL, ALCOHOL, TROLLEY.

SUGGESTIONS SUBMITTED TO THE ATTENTION OF THE SENATE.

Interesting Report on the Fuel Problem.

Submitted to the Senate by the Hawaiian Electric Railway Company.

In the House.

THIRTIETH DAY.

SENATE.

The following adverse report on the Kerosene oil withdrawal bill was read and on motion of Senator Waterhouse adopted.

We cannot conscientiously recommend this bill to pass for the following reasons: Everybody is

afraid of the danger threatened by the introduction of such explosive oil of crude Petroleum was meant, which is nothing but a fuel and cannot be used for illuminating purposes, there would be no objections. But we understand that this bill refers to a low-grade Kerosene, the color of which makes very little difference and that this may be used for illuminating purposes and thereby endanger every building or more every city on these islands.

Every marked "Fuel Oil" not to be used with a wick, it would not prevent many Japanese or Chinese to use this oil with a wick. It may be bottled and sold to innocent parties, who may become the sufferers thereby. The cheapest oil always sells more readily than a certain class.

It will be utterly impossible for the police to watch every hut, where such oil might be used, and even if they should catch a culprit after the house is burned down, his punishment will not satisfy the losers by the fire.

Such an excuse for this law, as is allowed, cannot induce us to favor the introduction of dangerous fuels. In regard to Gasoline we can state that the Board of Underwriters will increase the Fire Insurance Premium on all buildings where it is used. It may be inferred from this that the Fire Insurance Premium will also be raised, whenever Kerosene oils are allowed to be imported.

Senator Schmidt also handed in the following report on the alcohol bill, which was tabled to be considered.

This bill is more complicated than it appears on the face of it, and it is no wonder that every Legislature for several years had to grapple with it.

There are several reasons to be considered:

1. The interest of the liquor dealers who pay a high license and therefore are entitled to some protection against any illegitimate business.

2. The druggists and doctors, who are anxious to furnish medicines as cheap as possible.

3. The community which wishes cheap medicine and at the same time protection against illicit sales of intoxicating drugs.

4. The Government, which wants revenues and simultaneously wishes to promote the welfare of all Hawaiian subjects.

With all these points in view your committee has come to the conclusion to recommend to fix the duty on alcohol, subject to all limitations and conditions of this act, at \$3.50 per gallon instead of \$2.00 per gallon (Section 5).

At this rate the druggists can mix their own medicine at a reasonable cost although at present they import all medicines mixed with alcohol at a duty of 10 per cent. ad valorem only. This low duty on drugs and medicines is no revenue to the Government and a duty of \$3.50 on a gallon of alcohol would be more remunerative. At present only about 10 gallons of alcohol are imported annually and the duty at the rate of \$7.50 a gallon, \$75 is a mere trifle.

We would also recommend to amend Section 6 by inserting the words "to one party within one week" after the word "sale" line 3.

As it reads now any one party can go every 5 or 15 minutes to any or every druggist and purchase 1/2 pint of alcohol and even if his name should be registered, there is no law to prevent him from doing so and to punish him for it.

In Section 6 line 3 we recommend to insert 1 gallon instead of 1/2 gallon, so as to restore the original law which was quite satisfactory to all parties concerned, except one.

The following, one of the ready-made resolutions of the trolley combine, was received from the American League:

WHEREAS, In the year 1884, the Legislature of the Hawaiian Kingdom, granted, to certain persons, afterwards known as the Hawaiian Tramways Company, a franchise authorizing the construction and operation of a street railway on the city of Honolulu and vicinity;

WHEREAS, The said company did construct, and have since operated the said railway, by the power of horses and mules;

WHEREAS, In compliance with the request of the said Company, the Legislature in the year 1890, further granted to it, the said Company, the right, without limitation as to time, to convert its system, into an electric system of street railways—which right and privilege it has failed to avail itself of;

WHEREAS, It is essential to the welfare, advantage and convenience of the people of the city of Honolulu, that a rapid transit system of street railways, propelled by the power of electricity, be constructed and operated in the said city and vicinity;

WHEREAS, The Honolulu Electric Railway Company has caused to be presented to the Legislature of the Republic of Hawaii, at the present session, a bill to incorporate the same, and grant a franchise authorizing the construction, equipment and operation of a system of electric railways on certain other streets in the said city of Honolulu and vicinity;

WHEREAS, The cost of the construction and equipment will approximate \$400,000 and the yearly expense will be about \$135,000;

WHEREAS, The expenditure of these sums will add much to the comfort of our citizens, and materially enhance the interests of our merchants as well as others;

WHEREAS, The House of Representatives have had the said bill before them for their consideration, and approved the same as amended, upon its final passage, by an unanimous vote, therefore, for the foregoing and other reasons, it is Resolved, By the American League, that the Senate be requested to give, to the present amendment, the said bill its favorable consideration, subject to such amendment and restriction as in their wisdom may seem expedient for the reasonable protection of the rights of the people, so that the work of construction, shall not be delayed or prevented by the rejection of the bill.

There was taken and passed on third reading the supplemental appropriation bill for \$8,300, originally \$32,300.

Adjourned to 10 a. m. Monday.

HOUSE.

Replies to questions propounded by Representative Robertson from the Minister of Interior were read:

First reply—in answer to the question put by Representative Robertson as to whether or not a petition has been received by the Executive from certain residents of Honolulu relating to the removing of the powder magazine from its present location; it so to state, a number of resolutions were taken thereon, I beg to reply that a petition dated April 16, 1895, was received, and the matter is under consideration, but the government has not as yet been able to determine on a site that would be in a safer locality and at the same time within a reasonable distance for the convenience of those storing powder.

Second reply—in answer to the question put by Representative Robertson as to whether the landing at Kipahulu, Maui, is public or private property, I beg to reply that the same is private property, the Government having no interest therein.

The Minister of the Interior, to questions of Representative Kamao, presented answers to the effect that, 1, the change of Government road at Napepou, South Kona, was made without petition, after inspection by the Superintendent of Public Works and Surveyor Bruner; 2, property owners will be reimbursed for any damage as soon as right-of-way, now being negotiated for, is obtained.

Representative McBride propounded the following questions to the Minister of Interior: By what authority is the work on the building to enclose the new pumping plant in Honolulu, now being constructed, it is being carried out under contract?

The answer of the Minister of the Interior, dated August 1, 1919, is as follows: The contract, and date of award. Date of publication for tender for work.

Considering of Act relating to supplementary appropriations for the use of government.

Item for support of Citizens Guards, \$5,000 was referred to the finance committee.

Representative Bond made a motion that \$13,650 be the sum of \$3,000 for repairing school houses. Carried.

An item for road from Kohala to Waimea, \$3,000 was inserted.

Representative Richards moved that an item for roads in Hilo district, \$10,000 be inserted. He later amended the item to read, road through Maunaloa Gulch, \$5,000. Carried.

Representative Kaeo moved for \$500 for repairs to courthouse at Kaloa.

Representative Hanua amended the item to read \$250. Carried.

Representative Kamao moved that the item of \$150 be inserted for a fence around the courthouse at Kohala. Lost.

At noon the House adjourned to 1:30 o'clock.

The Royal Mammoth Cave, situated in Crawford county, Ind., near the Ohio river, is said to rival the Mammoth cave of Kentucky in grandeur and size. It is the largest cave in the world and is the site of several of its chambers. One of these chambers is 300 feet in length, 60 feet in height and contains a hall 175 feet high, on which are three fine stalagmites. Epona salts, silver and alum have been obtained from the cave.
